

miles to its intersection with SR 47; then

(9) Proceed south on SR 47 for approximately 0.5 mile to its intersection with SR 534 at the village of Gardenville Center; then

(10) Proceed southeasterly through Gardenville Center on SR 534 to its intersection with SR 544; then

(11) Proceed northeasterly on SR 544 to its intersection with SR 73 on the Hammonton map; then

(12) Proceed north-northwesterly on SR 73 to its intersection with SR 70 in Cropwell; then

(13) Proceed east on SR 70 to its intersection with U.S. 206 in Red Lion; then

(14) Proceed north on U.S. 206, onto the Trenton map, to the intersection of U.S. 206 and an unnamed road locally known as CR 537, in the village of Chambers Corner; then

(15) Proceed northeasterly on CR 537, through the village of Jobstown; then

(16) Continue northeasterly on CR 537, through the villages of Smithburg and Freehold, to its intersection with SR 18, east-northeast of Freehold; then

(17) Proceed easterly on SR 18 to its intersection with the Garden State Parkway; then

(18) Proceed north on the Garden State Parkway to its intersection with SR 36 and proceed east along SR 36 onto the Long Branch map; then

(19) Using the Long Branch map, continue east on SR 36 to where it intersects with Joline Avenue; then

(20) Proceed northeasterly on Joline Avenue to the Atlantic Ocean shoreline; then

(21) Follow the Atlantic Ocean shoreline south, encompassing all coastal islands, onto the Trenton, Hammonton, Atlantic City, and Cape May maps, to the city of Cape May; then

(22) Proceed west, then north, along the eastern bank of the Delaware River, onto the Atlantic City, Dover, and Wilmington maps to the beginning point.

Dated: December 4, 2006.

John J. Manfreda,
Administrator.

Approved: January 29, 2007.

Timothy E. Skud,
Deputy Assistant Secretary, (Tax, Trade, and Tariff Policy).

BILLING CODE 4810-31-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 155

[USCG-1998-3417]

RIN 1625-AA19

Salvage and Marine Firefighting Requirements; Vessel Response Plans for Oil

AGENCY: Coast Guard, DHS.

ACTION: Final rule; partial suspension of regulation.

SUMMARY: Current vessel response plan regulations require the owners or operators of vessels carrying Groups I through V petroleum oil as a primary cargo to identify in their response plans a salvage company with expertise and equipment, and a company with firefighting capability that can be deployed to a port nearest to the vessel's operating area within 24 hours of notification (Groups I-IV) or a discovery of a discharge (Group V). On January 23, 2004, a notice of suspension was published in the **Federal Register**, suspending the 24-hour requirement scheduled to become effective on February 12, 2004, until February 12, 2007 (69 FR 3236). The Coast Guard has decided to extend this suspension period for another two years to allow us to complete the rulemaking that will revise the salvage and marine firefighting requirements.

DATES: This extension is effective as of February 12, 2007. Termination of the suspension will be on February 12, 2009.

ADDRESSES: You may submit comments identified by Coast Guard docket number USCG-1998-3417 to the Docket Management Facility at the U.S. Department of Transportation. To avoid duplication, please use only one of the following methods:

(1) *Web Site:* <http://dms.dot.gov>;

(2) *Mail:* Docket Management Facility, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590-0001;

(3) *Fax:* 202-493-2251;

(4) *Delivery:* Room PL-401 on the Plaza level of the Nassif Building, 400 Seventh, Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329; or

(5) *Federal eRulemaking Portal:* <http://www.regulations.gov>.

The Docket Management Facility maintains the public docket for this

rulemaking. Comments and material received from the public will become part of this docket and will be available for inspection or copying at room PL-401 on the Plaza level of the Nassif Building at the same address between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also access this docket on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule or the partial suspension of regulations, call Lieutenant Commander Reed Kohberger, Office of Standards Evaluation and Development, Coast Guard Headquarters, telephone 202-372-1471, or via e-mail: Reed.H.Kohberger@uscg.mil. For questions on viewing or submitting material to the docket, call Ms. Renee V. Wright, Program Manager, Docket Operations, telephone 202-493-0402.

SUPPLEMENTARY INFORMATION:

Background and Regulatory History

Requirements for salvage and marine-firefighting resources in vessel response plans have been in place since February 5, 1993 (58 FR 7424). The existing requirements are general. The Coast Guard did not originally develop specific requirements because each salvage and marine firefighting response for an individual vessel is unique, due to the vessel's size, construction, operating area, and other variables. The Coast Guard's intent was to rely on the planholder to prudently identify contractor resources to meet their needs. The Coast Guard anticipated that the significant benefits of a quick and effective salvage and marine-firefighting response would be sufficient incentive for industry to develop salvage and marine firefighting capability parallel to the development of oil spill removal organizations.

Early in 1997, it became apparent that there was disagreement among planholders, salvage and marine-firefighting contractors, maritime associations, public agencies, and other stakeholders as to what constituted adequate salvage and marine-firefighting resources. There was also concern as to whether these resources could respond to the port nearest to the vessel's operating area within 24 hours.

On June 24, 1997, a notice of meeting was published in the **Federal Register** (62 FR 34105) announcing a workshop to solicit comments from the public on potential changes to the salvage and marine-firefighting requirements currently found in 33 CFR part 155.

A public workshop was held on August 5, 1997, to address issues related

to salvage and marine-firefighting response capabilities, including the 24-hour response time requirement, which was then scheduled to become effective on February 18, 1998. The participants uniformly identified the following three issues that they felt the Coast Guard needed to address:

(1) Defining the salvage and marine firefighting capability that is necessary in the plans;

(2) Establishing how quickly these resources must be on scene; and

(3) Determining what constitutes an adequate salvage and marine-firefighting company.

Reason for Suspension

On February 12, 1998, a notice of suspension was published in the **Federal Register** suspending the 24-hour requirement scheduled to become effective on February 18, 1998, until February 12, 2001 (63 FR 7069) so that the Coast Guard could address issues identified at a public workshop through a rulemaking that would revise the existing salvage and marine firefighting requirements. On January 17, 2001, a second notice of suspension was published in the **Federal Register** suspending the 24-hour requirement scheduled to become effective on February 12, 2001, until February 12, 2004 (66 FR 3876) because the potential impact on small businesses from this new rulemaking requires the preparation of an initial regulatory flexibility analysis under the Small Business Regulatory Enforcement Fairness Act of 1996. This was not determined until a draft regulatory assessment was completed in November 2000. On January 23, 2004, a third notice of suspension was published in the **Federal Register** suspending the 24-hour requirement scheduled to become effective on February 12, 2004, until February 12, 2007 (69 FR 3236) because during the preceding three years, the Coast Guard had to redirect the majority of its regulatory resources to issue security-related regulations as required by the Maritime Transportation Security Act of 2002. As a result, we were unable to complete our review of the comments we received in response to a May 10, 2002, notice of proposed rulemaking (NPRM) (67 FR 31868) on the proposed revisions to the existing salvage and marine-firefighting requirements. Now that the comments have been reviewed, and a draft programmatic environmental assessment prepared, we will begin to prepare an updated regulatory assessment.

The extension of the suspension period will continue to relieve the affected industry from complying with

the existing 24-hour requirements until this rulemaking project is complete, and amendments to the salvage and marine firefighting requirements become final.

Regulatory Evaluation

Although the final rule published in 1996 was a significant regulatory action under section 3(f) of Executive Order 12866, the Office of Management and Budget does not consider this extension a significant action. As a result, it does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard considered whether this extension will have a significant economic impact on a substantial number of small entities. "Small entities" include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

This extension will not have a significant economic impact on a substantial number of small entities because it reflects existing conditions and relieves planholders from certain original requirements. Any future regulatory action on this issue will address any economic impacts, including impacts on small entities. Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this extension to a suspension of certain requirements will not have a significant economic impact on a substantial number of small entities.

Assistance for Small Entities

The Small Business and Agriculture Regulatory Enforcement Ombudsman and 10 Regional Fairness Boards were established to receive comments from small businesses about Federal agency enforcement actions. The Ombudsman annually evaluates the enforcement activities and rates each agency's responsiveness to small business. If you wish to comment on the enforcement actions of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247).

Collection of Information

This action does not provide for a collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Federalism

We have analyzed this action under E.O. 13132 and have determined that it does not have implications for federalism under that Order. Because this action extends a suspension of certain requirements, it does not preempt any state action.

Unfunded Mandates Reform Act

This action will not result in an unfunded mandate under the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538).

Taking of Private Property

This action will not effect a taking of private property or otherwise have taking implications under E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This action meets applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this action under E.O. 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with

applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We considered the environmental impact of this rule and concluded that preparation of an Environmental Impact Statement is not necessary. An Environmental Assessment and a Finding of No Significant Impact are available at http://dmses.dot.gov/docimages/pdf33/50180_web.pdf. We have also reexamined that information and determined it is still accurate.

List of Subjects in 33 CFR Part 155

Hazardous substances, Incorporation by reference, Oil pollution, Reporting and recordkeeping requirements.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 155 as follows:

PART 155—OIL OR HAZARDOUS MATERIAL POLLUTION PREVENTION REGULATIONS FOR VESSELS

■ 1. The authority citation for part 155 continues to read as follows:

Authority: 33 U.S.C. 1231, 1321(j); 46 U.S.C. 3715, 3719; sec. 2, E.O. 12777, 56 FR 54757, 3 CFR, 1991 Comp., p. 351; Department of Homeland Security Delegation No. 0170.1.

Sections 155.110–155.130, 155.350–155.400, 155.430, 155.440, 155.470, 155.1030(j) and (k), and 155.1065(g) also issued under 33 U.S.C. 1903(b); and §§ 155.1110–155.1150 also issued 33 U.S.C. 2735.

Note: Additional requirements for vessels carrying oil or hazardous materials appear in 46 CFR parts 30 through 36, 150, 151, and 153.

§ 155.1050 [Amended]

■ 2. In § 155.1050, paragraph (k)(3) is suspended until February 12, 2009.

§ 155.1052 [Amended]

■ 3. In § 155.1052, the last sentence in paragraph (f) is suspended until February 12, 2009.

Dated: February 5, 2007.

J.G. Lantz,

*Acting Assistant Commandant for Prevention,
U.S. Coast Guard.*

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 71

[OST Docket No. 2006–26442]

RIN 2105–AD65

Standard Time Zone Boundary in Pulaski County, IN

AGENCY: Office of the Secretary (OST), the Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: DOT is relocating the time zone boundary in Indiana to move Pulaski County, Indiana, from the Central Time Zone to the Eastern Time Zone. This action serves the convenience of commerce, the statutory standard for a time zone change, and is taken in response to a petition filed by the Pulaski County Commissioners and County Council.

DATES: The effective date of this rule is 2 a.m. CST, Sunday, March 11, 2007, which is the changeover date from standard time to daylight saving time.

FOR FURTHER INFORMATION CONTACT: Judith S. Kaleta, Office of the General Counsel, U.S. Department of Transportation, Room 10428, 400 Seventh Street, SW., Washington, DC. 20590, indianatime@dot.gov; (202) 366–9283.

SUPPLEMENTARY INFORMATION:

Current Indiana Time Observance

Indiana is divided into 92 counties. Under Federal law, 74 Indiana counties are in the Eastern Time Zone and 18 are in the Central Time Zone. The Central Time Zone counties include seven in the northwest (Lake, Porter, La Porte, Starke, Newton, Jasper, and Pulaski) and eleven in the southwest (Knox, Daviess, Martin, Gibson, Pike, Dubois, Posey, Vanderburgh, Warrick, Spencer, and Perry). The remaining 74 counties are in the Eastern Time Zone. The entire State began to observe daylight saving time in 2006. Neighboring States observe both Eastern and Central time. Illinois and western Kentucky observe Central time, while eastern Kentucky, Ohio, and the portion of Michigan adjoining Indiana observe Eastern time.

In January 2006, DOT completed a rulemaking proceeding establishing new time zone boundaries that resulted in the current time zone observance. In that rulemaking in response to a petition from Pulaski County as well as other Indiana counties, the County was moved to the Central Time Zone. Pulaski County is bordered to the north and west by counties in the Central Time Zone and to the south and east by counties in the Eastern Time Zone. In February 2006, Pulaski County filed a Petition requesting a time zone change back to the Eastern Time Zone, and subsequently filed an Amended Petition.

In August 2006, Knox, Daviess, Martin, Pike, and Dubois Counties in Southwestern Indiana (the Southwestern Counties) filed a Joint Petition for a Time Zone Change (Joint Petition). This Final Rule addresses only Pulaski County. DOT is evaluating the Joint Petition and supplemental information from the Southwestern Counties before making a determination whether to propose a time zone change or deny the Joint Petition.

Statutory Requirements

Under the Standard Time Act of 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260–64), the Secretary of Transportation has authority to issue regulations modifying the boundaries between time zones in the United States in order to move an area from one time zone to another. The standard in the statute for such decisions is “regard for the convenience of commerce and the existing junction points and division points of common carriers engaged in interstate or foreign commerce.”

DOT Procedures To Change a Time Zone Boundary

DOT has typically used a set of procedures to address time zone issues. Under these procedures, DOT will generally begin a rulemaking proceeding to change a time zone boundary if the highest elected officials in the area provide adequate supporting data for the proposed change. We ask that the petition include, or be accompanied by, detailed information supporting the requesting party’s contention that the requested change would serve the convenience of commerce. The principal standard for deciding whether to change a time zone is defined very broadly to include consideration of all the impacts upon a community of a change in its standard of time. We also ask that the supporting documentation address, at a minimum, each of the following questions in as much detail as possible.
