In addition, please refer to EPA’s e-Manifest web page for further information: [www.epa.gov/e-manifest](https://www.epa.gov/e-manifest).

**SUPPLEMENTARY INFORMATION:** This action corrects four minor errors to certain regulatory amendments established in the July 26, 2024, final rule (89 FR 60692) for 40 CFR 262.21, 262.42, and 262.83.

With respect to the regulatory amendments at § 262.21, the July 26 final rule established revised printing specification requirements at § 262.21(f)(6) and (7) for the new four-copy paper manifest (EPA Form 8700–22) and continuation sheet (EPA Form 8700–22A) forms. Section 262.21(f)(6) describes the revised copy distribution requirements to be printed on each copy of the new four-copy manifest (EPA-Form 8700–22) and continuation sheet (EPA Form 8700–22A). Section 262.21(f)(7) describes the revised printing specifications for printing the appropriate manifest instructions on the back of the form copies. Although, EPA finalized the manifest forms themselves by revising the wording of the distribution scheme in the bottom right margins of the forms and by moving the instructions on the reverse side of Page 2 (“Designated Facility to Generator” copy) to the reverse side of Page 1 (top copy) of the manifest forms, EPA inadvertently did not make these conforming changes in the regulatory text at § 262.21(f)(6) and (7). This includes adding two instances of “U.S.” to the Page 1 (top copy) text and making changes for use of capitalization in Pages 1–4. To correct these errors, this action revises paragraph § 262.21(f)(6) so that the words indicating copy distribution exactly match the words shown at the bottom right margin of each copy of the new four-copy manifest forms. Similarly, and in addition, this action corrects § 262.21(f)(7) to match the language on the new four-copy manifest form—*i.e.*, to require that commercial printers authorized by EPA to produce the manifest forms print the instructions for designated facilities and
